LETTER ACCOMPANYING FILING OF CONTINUATION APPLICATION

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

The accompanying continuation application is being filed with a revised specification and claims. No new matter has been added.

The specification has been revised to include a complete cross-reference to the earlier applications. The specification has also been revised to comply with current U.S. practice regarding paragraph numbering and the clarity of print required for publication.

The claims are drawn to a method for the treatment of psoriasis, dermatitis, acne or seborrhea (e.g. Claim 1) or to a method for treatment of signs of light-induced or chronological aging of the skin (e.g. Claim 10) or a method for promoting hair regrowth/treating hair loss (e.g. Claim 13); the methods comprise administering at least one of the specific compounds named in the application. The claims are enabled not only by statements made throughout the specification, but also by the synthetic Examples in which the preparation of the specific compounds is described and also by the numerous formulation Examples which describe preparation of various compositions containing a variety of specific compounds and instructions for use in the claimed methods. The compounds of Claims 1 and 10 not specifically mentioned in the formulation Examples are very closely related

structurally to those illustrated. Thus, the specification clearly enables one of ordinary skill to make and use the invention as claimed in the accompanying claims.

Respectfully submitted,

BURNS, DOANE, SWECKER & MATHIS, L.L.P.
